Recording volunteer hours | Sky's The Limit

Why it is important to record your hours?	How many hours have I volunteered?	Record volunteer hours First time	Record volunteer hours Ongoing

Be sure to record every hour you generously gave your time and talent to a nonprofit or community-based organization.

When you record all your hours, you can unlock access to a host of additional benefits, including the opportunity to make underlined volunteer grants to your favored, eligible organizations. You can also receive recognition, and of course be part of our company commitment to deliver more than 2 million hours globally to communities who need us the most.

Whether you deliver Better Money Habits®, mentor, feed the hungry, support your place of worship, or volunteer for other causes you care about — during work hours or after hours, on your own or with teammates, virtually or in-person — your volunteer hours count.
